FIRST COME, FIRST SERVED!

We also have one certificate from SMGF.org for a 26 marker kit from Relative Genetics for \$95. Contact me if you wish to take advantage of this offer.

All unconfirmed haplogroup WEBBs!

Ethnoancestry (URL below) is offering their Haploview Test (Marlingen Test) for \$99 through 12/23/06. This tests 96 SNPs, and for some, these tests are in more depth than the Family Tree SNP Testing. <http://www.ethnoancestry.com/haploview.htm> Check your personal page at Family tree under the HAPLOGROUP Tab and the link to their Deep SNP testing to compare pricing and what each company tests for you. If you tested elsewhere, you may not have ANY SNP testing done and may wish to take advantage of this testing at this special price.

CALLING ALL R1B WEBBS!

Ethnoancestry (www.ethnoancestry.com) is offering a special on their UNIQUE S-series SNPs through 12/23/2006. . If you do NOT belong to a geographical Project, you may wish to join one to take advantage of this offer. Ethnoancestry is looking for the geographic patterns of these SNPs across Europe, and they need data.

If a GEOGRAPHICAL Project can offer a minimum of SEVEN (7) R1bs from their project, the test will be \$99 (instead of the usual \$129). If you belong to a geographical project, please contact your Geographical Project Administrator NOW if you wish to take advantage of this holiday offer.

CALLING ALL I1a WEBBS!

This would be the Richmond Alias WEBB and Samuel Webb Group. Ethnoancestry is also offering a special on their NEW SNPS within I1a – S62-S66. For new customers, this will be billed at \$119 (returning customers -- \$99). Just order the test on site – the posted pricing will be reduced for all orders before the close of business 12/23/06. Go to Custom Select, order one SNP with an extraction, a 2nd SNP, a 3rd, a 4th and a 5th. Then put "5 new I1a SNPs" in the comments section. The price adjustments will be handled in house.

WEBB GENERAL FUND

The Webb General Fund has had a small infusion of cash – there is now \$55 in the kitty. This is a start. If you can spare even \$1, please make a Gift to the Fund so we can continue our research into the WEBB families! Thank you!

NEW BOOKS!
